Preface

Revision History

Revision	Description	Date
1.0	New Release of AppViewX v2020.3.0 FP1	February 2021

Text Conventions

The following text conventions are used in this document:

Convention	Description
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>codeblock</code>	Indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Chapter 1: Purpose

This release document accompanies AppViewX v2020.3.0 FP1 feature releases. All the customer requests such as feature requests, enhancements, bug fixes, known behaviors, and known issues are handled via monthly maintenance release called as fix pack (FP). In this FP1 release, 26 tickets are identified to fix the issues in AppViewX v2020.3.0. All the defects are regressed and packaged as part of the FP1 release.

Chapter 2: Intended Audience

This document is intended for the customer who is already installed AppViewX v2020.3.0.

Note:

- Customers who is already installed or upgraded to 20.3.0 on or before 15th December, 2020 can take this FP1 package and apply patch. (Note: HP1 must be applied prior to applying FP1 Package).
- New customers who will install on or after 05th February, 2021 with the new installer HP2 - FP1 package can be downloaded and patch can be applied once the installation is completed.

Chapter 3: Feature Requests

Feature Requests are additional features that enhance the AppViewX v2020.3.0 application. It is suggested by customer/user to improve the functionality of AppViewX application. This section lists the change requests in AppViewX v2020.3.0 for the CERT+, ADC+, DEVOPS, Platform, Architecture, and Automation modules.

There is no feature request in AppViewX v2020.3.0 FP1 Release.
